

60" In-Touch™ HDTV Model IT-6002

Every In-Touch™ HDTV comes with a great looking, high definition TV, and a screen surface that can be written with a pen. Just by adding a PC, the screen becomes a family message center for a little kid or a busy mom, and can be accessed easily with a remote. What is more, the In-Touch™ Screen becomes a portal to a PC. Yes, you can:

- Point and click and surf the web
- Start a web phone call or conference call
- Immerse in an interactive learning program
- Present your ideas and run a review meeting

All of the above can be accomplished without turning to a keyboard or a mouse. You can run the computer in a full screen mode, or in a window while keeping tab with a sports program.

Every In-Touch™ HDTV includes whiteboard programs to get you started with the best interactive learning, and turns the HDTV into an incredible education, as well as entertainment center. Learn more about our new In-Touch™ HDTV, and we will reserve one for you.
